Dear Sir:

## ST. LAWRENCE SYSTEM

In accordance with your instructions we have prepared the attached summary of various data in connection with estimated, interim and actual power rates, etc., in regard to the municipalities comprising the St. Lawrence System.

Attention should be called to the fact that the figures appearing in the "Actual Rate" columns of the years 1914 to 1920, inclusive, represent the cost of power per "annual adjustment" after giving effect to a reduction on account of a revision of renewal rates which took place during the year 1921 and was made retro-active to the commencement of operations. On the other hand, the estimated rates originally quoted and the interim rates subsequently charged, as shown on the summary, presumably made provision for the renewal rates then in force.

Yours very truly,

*Price Waterhouse*
